How the Program Works

The Free College Benefit is a last dollar scholarship that fills the gap between the cost of tuition, fees, and e-books at PQC and any federal, state or employer education grants for which a student is eligible. It is a type of financial aid, so students must comply with the federal, state, and college academic and financial aid policies, which can be found on the [Free College website](#). To determine the amount of the scholarship, students first apply for and use any federal student aid awarded through the Free Application for Federal Student Aid (FAFSA).

Even if it's determined that the student is not eligible for any grants, the last dollar scholarship will cover the balance for tuition, fees, and e-books.

No admissions testing, interview, or letters of recommendation are required.

Enrollment Process

The application for PQC can be found here:
