

# MADE IN AMERICA: DONALD TRUMP LIES

## Trump the Divider

Donald Trump is the scariest, nastiest, most egotistical and least prepared presidential candidate in our lifetime. He's a common bigot in an expensive suit who would become the Divider-in-Chief in the White House.

## Trump in his own words:

"I've got black accountants at Trump Castle and Trump Plaza – black guys counting my money! I hate it. The only kind of people I want counting my money are short guys that wear yarmulkes every day. Those are the kind of people I want counting my money. Nobody else... Besides that, I've got to tell you something else. I think that the guy is lazy. And it's probably not his fault because laziness is a trait in blacks. It really is; I believe that. It's not anything they can control."

## Trump the Trade Hypocrite

Trump has promised American workers he will "bring jobs back to America." Really, Donald?

- For the past 10 years, Donald Trump has personally negotiated deals and profited from deals that outsourced products under his name to China, Japan, Mexico, Brazil and other low-wage countries.
- He has taken advantage of the same "bad trade deals" that he now promises to fix. Everything from Trump ties to Trump ballpoint pens are produced outside of the United States.

In fact, the only thing Trump produces in this country are YUGE lies. Trump is a hypocrite and he's lying to workers across the country – including steelworkers – to get their votes. This is not a man of the people. This is no champion of fair trade.

## No Keys to the White House for Trump

A Trump presidency would pull this country apart and make the world situation far more dangerous and unpredictable. But as scary and crazy as it sounds, Trump could actually win in November. How?

- If voters are complacent
- If turnout on Election Day drops
- If too many young people, unenthusiastic about either Trump or Clinton, tune out of the election altogether

Would you rather wake up the morning after the election to the nightmare of a Trump presidency or to the joy of making history – again – with the victory of the first female candidate for president of the United States, Hillary Clinton?

## CLINTON-KAINE: Solid & Sane
