27 January 2018

Dear Ruben,

ESSO/UGL Dispute Australia

On Behalf of Myself, the 200 workers and our families currently affected by the ESSO/UGL Dispute, I would like to acknowledge and thank you for supporting us on our recent trip to Houston from the 11th to the 16th of January 2018.

This was a great opportunity for us to meet with you and share our fight against the union busting tactics that are currently being used by Exxon Mobil & UGL in Australia to undermine many years of hard fought wages & conditions. Not to mention the underhanded tactics that have been used to avoid collective agreement bargaining.

We cannot thank you enough for believing in our campaign and being on board to listen and support us as we near 250 days of continuous 24hr 7day per week striking.

Your show of support to us was extremely uplifting.

In Unity & Solidarity
