

# UNION UPDATE

August 31, 2023

## Republic Shutdown Update

On August 17th the Union met with the Company to discuss the “indefinite idling” of Republic’s Canton, OH; Massillon, OH, and Lackawanna, NY facilities.

During the meeting, **the Company committed to provide the benefits of the Collective Bargaining Agreement for laid-off employees, with regard to healthcare benefits and SPT payments.**

The Union sent the Company an information request on August 23rd and is currently waiting on the Company’s responses.

**Once the information request is satisfied, the Union will be making a demand to effects bargaining over the shutdown of the facilities.**

As we get more information and dates for the bargaining set, we will pass the information on through this venue.
