A Budget for Billionaires, Not Working Families

Congress has now passed a budget bill that working families cannot afford. The legislation adds \$3.3 trillion to the national debt while slashing programs that keep our communities strong – cutting health care funding, rolling back investments in clean energy and advanced manufacturing jobs, and giving permanent tax breaks to corporations and the wealthiest Americans.

Meanwhile, working people are left with small, temporary tax relief that barely makes a dent in the rising costs families face every day.

This bill is a giveaway to the wealthy at the expense of the people who keep this country running.

“We’re going to continue to stand up and fight back — because our jobs, our families, and our future are on the line and at risk. So today, I’m calling on every USW member and every working American to pick up the phone and call your member of Congress. Tell them this is disgraceful and a job killing budget bill. Tell them we won’t forget who stood with us — and who sold us out.” – USW International President, David McCall

Enough is enough. Working people deserve better.
