## Massachusetts Lobby Day: Roadside Safety Can't Wait!

Every worker deserves to come home safe at the end of the day. We're calling on our state elected officials to support bill S.2547/HB.3675, a critical piece of legislation that will help protect the lives of utility workers and motorists stranded on roads.

This bill expands the current "Move Over Law" by requiring drivers to slow down or move over when passing stationary utility vehicles and disabled vehicles, just like they do for emergency vehicles. It gives legal protections to workers responding to emergencies and to motorists in distress, people who deserve to be seen, respected, and safe.

As USW members, we know the value of looking out for one another. This fight is about protecting working people, and your voice can make the difference. That's why we're heading to the State House.
